

Outdoor Breakout Area

BOARD ROOM

Conference Room Fact Sheet

Summary

The Boardroom has natural lighting, with its own private outdoor courtyard area including an outdoor speaker. The room itself is air-conditioned/heated and has 5 wall power points, a white board with markers as well as a wall clock.

The room has 2 projectors and 2 screens as well as day & night blinds. Only 1 HDMI input source accepted and identical content will be displayed on both screens. This also includes support for microphones with 3.5mm audio.

Please see below for further information about video conference capabilities, hearing impaired capabilities and a detailed list of equipment available

Seating Arrangements

The Board room has one long table configuration with a maximum seating available for 16 pax (see configuration on right).

Video conference - Cisco Webex

With the Cisco Webex Board 70 inch (formerly Cisco Spark Board), you can wirelessly present whiteboard, video or audio conference, and even annotate shared content. The WebexBoard has everything you need for team collaboration at the touch of a finger. Use the Cisco Webex Teams (formerly Cisco Spark) app to connect with virtual team members through the devices of their choice.

Hearing impaired capabilities

The Boardroom has the hearing loop system coverage the entire room for use by people with hearing aids, it provides a wireless signal that is picked up by the hearing aid when it is set to 'T' setting.
